Indebtedness, Feb. 15, 1906,	\$3,978 85

In rendering our report for the year ending Feb. 15, 1906, we wish to state that no parties having appeared to sign a contract for lighting the streets with electricity, the amount of \$600 raised last year for this purpose, remains in the town treasury, awaiting the pleasure of the voters of the the town.

As an experiment, and to show the people what kerosene lamps would do, we purchased six of them and placed them around the common.

We hope in this way that the voters may get a better idea as to whether they care to extend this system or adopt some other plan of lighting the streets of the town.

Last year the town was required by law to set aside the sum of \$916.50 for permanent state roads, having voted to apply for state aid.

There remains in the state treasury a balance of \$362.19 due the town for this purpose. The balance in the town treasury amounts to \$898.25, which makes a total of \$1,260.44 available for permanent roads, from last year.

For 1906, the town is required by law to set aside the sum of \$625.00.

If it is voted to apply for state aid, an additional amount of \$312.50 must be set aside, to which the state will add \$374.80.

According to these figures, the amount available for permanent state roads for 1906 will be as follows:

Amount required by law to be set aside for	
1906,	\$625 00
Unexpended balance from last year,	1,260 44
	<hr/>
	\$1,885 44

The above figures show the amount if the town does not apply for state aid.

If the town does vote to apply for state aid, the figures will be as follows:

Amount required by law to be set aside for	
1906,	\$625 00
Amount to be set aside by town in addition to	
above,	312 50
Amount added by state,	374 80
Unexpended balance from 1905 fund,	1,260 44
	<hr/>
	\$2,572 74

We present these figures that the voters may intelligently decide as to which course they may choose to adopt.

We would recommend that the following amounts be raised for the various articles of the town warrant:

- Article 2. \$300.00.
- Article 3. \$2,000.00.
- Article 4. \$200.00.
- Article 5. \$2,000.00.

Article 6. The amount required by law.

Article 7. \$100.00.

All of which is respectfully submitted.

WILLIAM J. BOYDEN,
LINWOOD B. EMERY,

Selectmen of Troy.

We hereby certify we have examined the foregoing report of the selectmen of Troy, N. H., and find the same correctly cast and properly vouched for.

REPORT OF SUPERINTENDENT OF SCHOOLS,
FOR THE YEAR 1905-1906.

To the School Board of Troy:

Gentlemen.—I have the honor to submit my fourth report as superintendent of schools.

The distribution of pupils in the different rooms effected this year has worked better than was expected.

The five highest grades can not be taught by two teachers without making the recitation periods too short. Sixty pupils were enrolled in these grades in September, 1905. In September, 1906, there will be more; and in September, 1907, at least ninety. The impossibility of accommodating them in one room is apparent. The sixth grade will alone number at least forty pupils, and of itself will require one teacher. Two teachers will be necessary for the remaining four grades.

It is necessary to employ an assistant in the primary school. The inevitable increase of noise in trying to the teachers and somewhat distracts the attention of the pupils.

Grade first and grade second should each have its own teacher. This ought to be accomplished this fall.

It is evident that by September, 1907, one more school room will be absolutely necessary and two more should be provided. The plan of the village school building anticipated the addition of four rooms on the north side. Such a change would remove the present small recitation room in the upper hall. Three of these rooms, therefore, would be needed at once. The architect's design ought to be carried out and the rooms should be in readiness a year from next fall.

During the last three years there has been a steady improvement in the work of the schools in music. This reflects credit upon the lady in charge and also upon the regular teachers who have most faithfully assisted in realizing this result.

Respectfully submitted,

HENRY B. STEARNS.
